Number of Children Screened (provided an oral screen) by Payment Source

# of children DWP Kids (Title XIX)	50				50
# of Children Hawki funds	6				6
# of Children Early Childhood Iowa funds	14				14
# Children Title V (I-Smile) source	0				0

Quality/Efficiency:

Percentage of children screened	98.6%	#DIV/0!	#DIV/0!	#DIV/0!	98.6%
% of children screened that were high risk	8.6%	#DIV/0!	#DIV/0!	#DIV/0!	8.6%

Outcomes:

Number Screened with Decay	6				6
Percentage screened with decay	8.6%	#DIV/0!	#DIV/0!	#DIV/0!	8.6%

Number Screened with Demineralization	0				0
Percentage screened with demineralization	0.0%	#DIV/0!	#DIV/0!	#DIV/0!	0.0%

Number of high-risk children that received dental care coordination	7				7
Percentage of high-risk children that received dental care coordination	116.7%	#DIV/0!	#DIV/0!	#DIV/0!	116.7%

Q 1: Our focus during the summer months is to go to the WIC clinics since the schools aren't in session during those months. We are doing care coordination for children from previous months as well as the current months depending oh which clients we were able to connect with in the previous months. The next quarter we will be going into school and daycare settings with school being back in session and will continue to focus on all of our required care coordination for high-risk, no dental home, and no dental visit within the past 12 months.

Narrative: pull down row if more room is needed.

Funding Amounts by Source:	DWP Kids (Title XIX):		\$2,454.08	2.0%	Hawk-i:	\$268.68	2.2%	Total:	\$9,152.04	Cost Per Child Screened	\$130.74
	Early Childhood Iowa:		\$6,429.28	0.22%		Title V (I-Smile):	\$0.00	#DIV/0!
